

## PENN FIELDS SCHOOL AIMS

**We aim to provide a secure, happy environment where all children's individual needs are recognised and catered for. We place special emphasis on literacy, numeracy, scientific exploration and ICT.**

### **We aim:**

- To provide a broad, balanced and relevant curriculum for every child with access to the National Curriculum; while considering each child as an individual with their own strengths and needs.
- To develop the skills, interests and attitudes necessary for everyday living.
- To encourage in pupils an awareness of personal and social attitudes, enabling them to become a valued and contributing member of his/her society.
- To develop in every child understanding and respect for other cultures and ensure the opportunity for intellectual, moral and spiritual growth.
- To help pupils achieve desirable attitudes to learning; to develop lively, enquiring minds, the ability to question, reason and apply themselves to the task in hand.
- To assist with the acquisition of high standards, self-discipline and a useful and acceptable code of behaviour.
- To create an environment where all pupils are able to learn, feel safe and secure and can gain in self-confidence thus improving their own self-image.
- To provide every pupil with the opportunity to succeed and develop a positive self-image.
- To work in partnership with parents/carers and other family members.
