WOLVERHAMPTON
VOCATIONAL TRAINING CENTRE

Our Aim

Our aim is that by the time each student leaves our Centre they are able to successfully function in a workplace environment **or** that they are able to further their skills through further education or training courses.

What is WVTC?

Wolverhampton Vocational Training Centre (WVTC) is a unique organisation catering for 16 – 19 year old students with an EHCP. We offer all of our students the chance to gain vital employability skills by providing practical, personally-tailored flexible courses within a purpose built vocational learning environment.

We offer each student their own Personal Pathway featuring high-quality training and work-based learning opportunities that equip our students with skills that will last a lifetime.

Our aim is to ensure all students who leave our care are supported to make a positive contribution to society by gaining employment or continuing their education and living their lives as independently as possible.
