## Penn Fields School 2021/22 Curriculum - proposal

#### Penn Fields proposed Intent:

We believe that every moment is a learning opportunity and that every moment matters. Penn Fields is a school that enables students to access and achieve not only qualification based outcomes, but also the skills needed to prepare for adulthood. Our aim is for our students to leave Penn Fields School, being the best possible version of themselves equipped with the tools needed to be a positive member of society and to continue their learning for life.

## Penn Fields proposed implementation:

To ensure that students have access to a broad curriculum, is reliant on all stakeholders being fully committed to its successful implementation. This will be achieved by sharing the why, the how and the possible outcomes for our students. Penn Fields School will be addressing the March 2019 Ofsted report with regards to ensuring there is a 'cohesive approach' and that teachers reach the correct balance of being able to assess students against any assessment criteria, but also build upon students wider knowledge and skills, through a three pronged approach of qualification based outcomes, a creative curriculum & a curriculum that includes preparation for adulthood.

## Key Changes Below:

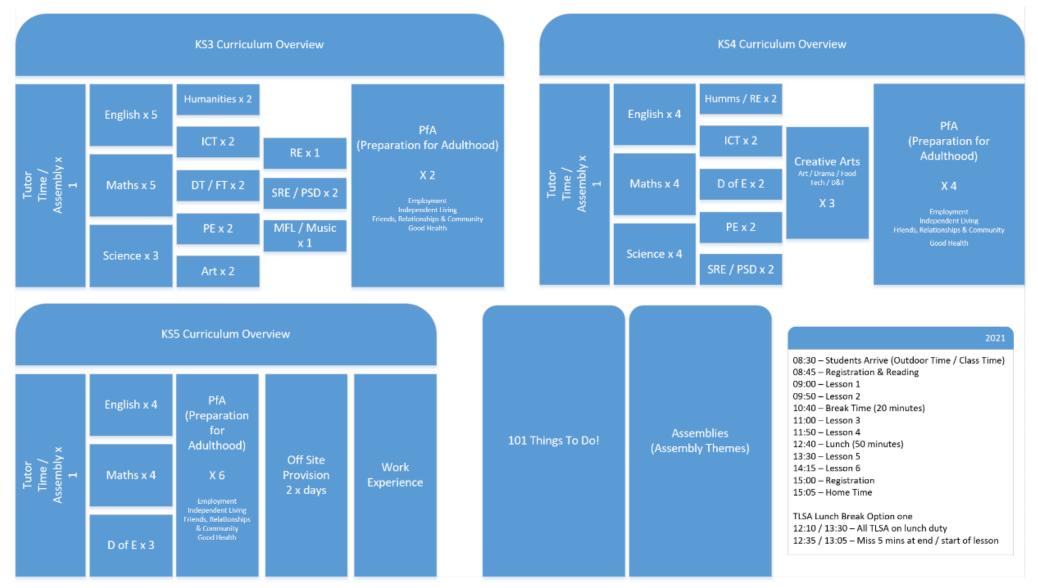

- School day to move from a 5 lesson day to a 6 lesson day
- Break time reduced from 30 minutes to 20 minutes
- Lunch time reduced form 1 hour to 50 minutes
- Introduction of a creative arts carousel
- Introduction of a preparation for Adulthood (PfA) carousel PfA being a common strand running through KS2 through to KS5
- All students to access the 101 Things To Do Before I Leave Penn Fields PF Passport to be created
- Increase of Science lessons in KS4

## Penn Fields proposed Impact:

We believe this will ensure our students leave Penn Fields School, with relevant qualifications (including English & maths) for their next steps and that our students & their parents feel confident they are the best possible version of themselves equipped with the tools needed to be a positive member of society and to continue their learning for life.

# Penn Fields School 2021/22 Curriculum - proposal

	Assemblies (Assembly Themes)									Learning for Life
