

 I am going to start a new school September. This

     means I will change my school. I might

   feel worried about this change. If I am worried I can

      tell my carers or teachers. They will help

    me to feel happy with the changes, There will be

     new children in my class. My carers and teachers

    will make sure I know what to do and where

     to go. I will have my own timetable and support

    staff to help me with the changes.

I will be with the same people every day for my

lessons. I will change rooms to go to some

lessons.

I will always know where to go next and move

around with my support teacher and friends.

I will start Secondary school and do my best with

help.
