

Coronavirus - Staying Safe

People are talking about Coronavirus because it is a

new type of flu.

Just like with all other cold or flu it is

important to be healthy.

Children and adults are very good at fighting flu.

It can be harder for older people to fight flu.

I can stay healthy by:

\* REGULARLY WASHING MY HANDS WITH SOAP.

I will do this:

\* Before eating

\* After using the toilet

\* After sneezing or blowing my nose

\* If they are dirty

I can

stay healthy

by:

\*

Not

touching

my

face

\*

Not

biting

my

nails

\*

Trying

not

to

touch

doors,

handles,

railings

I can

keep

others

healthy

by:

\*

Coughing

and

sneezing

into

my

elbow

\*

Putting

used

tissue

in

the

bin

\*

Staying at home

if

I

feel

sick

Just like any other cold or flu, Coronavirus

will go away soon.

I do not need to worry about it, but if I am

unsure, I can talk to my parents, carers or

teachers and they will help me.
